Professional Profile

Motivated and reliable Computing and IT (Networking) graduate with a strong academic foundation in networking, IT systems, and technical support. Having recently completed my degree, I am now seeking a full-time role in IT or technical support where I can apply my technical knowledge and continue developing my professional skills. I have proven experience working both independently and as part of a team in environments requiring confidentiality, effective time management, problem-solving, and strong attention to detail, and I am keen to contribute effectively to a professional organisation.

Key Skills

- Computer networking fundamentals (TCP/IP, DNS, DHCP, VLANs)
- Strong understanding of IT systems and security principles
- Experience with scheduling, workload management, and teamwork
- Familiar with C.O.S.H.H. (Control of Substances Hazardous to Health) standards
- Confident using Windows OS, Microsoft Office Suite, and basic hardware troubleshooting
- Excellent communication and organisational skills
